

# Waste electrical and electronic products

If you buy a new electrical item in any Bathstore branch you can:

- return your old household item to a branch

or

- take your old electrical item (household or non-household) free of charge to your local civic amenity site.

Please note that this is subject to the UK Waste Electronic and Electrical Equipment (WEEE) regulations that require items with the crossed out wheelie bin symbol to be segregated from municipal waste and disposed of in an environmentally sound manner.

The free of charge return to store service is subject to the following conditions:

- Waste Electrical items returned to our stores must be of a similar type or perform the same function as the new item purchased.

For more information please see: <http://www.vca.gov.uk/enforcement/weee-advice-to-householders.asp>

EEE may contain hazardous substances which, if exposed, may have a serious detrimental effect on the environment and human health.

- For large items that cannot practically be handled in this store, we may ask you to return the item to our nearest store that is able to handle it. Please call in advance to confirm arrangements before returning large items.
- This only applies to household items, business users are excluded.
- Items must be returned within 28 days of the delivery of your new item, with proof of purchase of the new item.
